

Yoav Gal-Tzur

yoavgaltzur@mail.tau.ac.il — yoavgaltzur.github.io

Israel — Date of Birth: September 16, 1991

Profile

PhD candidate in Computer Science at Tel Aviv University, supervised by Prof. Michal Feldman. My research lies at the intersection of economics and computation, with a focus on algorithmic contract design and fair division.

Education

PhD in Computer Science, Tel Aviv University 2023 – Present
Research in algorithmic game theory, contract design, and fair division.

MSc in Computer Science, Tel Aviv University 2021 – 2023
GPA: 95.
Thesis: “Combinatorial Contracts Beyond Gross Substitutes”.

BSc in Computer Science & Economics, Hebrew University of Jerusalem 2015 – 2018
GPA: 96.
Member of the “Amirim” Honors Program, Dean’s Honor List.

Additional Studies

Cognitive Science and Economics, HUJI 2014 – 2015
High School: Majored in Math, CS, English, Theater (Psychometric: 750).

Publications

- **Combinatorial Contracts Beyond Gross Substitutes**
P. Düetting, M. Feldman, Y. Gal-Tzur – *SODA 2024*.
- **Budget-Feasible Contracts**
M. Feldman, Y. Gal-Tzur, T. Ponitka, M. Schlesinger – *EC 2025*.
arXiv:2504.01773.
- **When Contracts Get Complex: Information-Theoretic Barriers**
P. Düetting, M. Feldman, Y. Gal-Tzur, A. Rubinstein – *SODA 2026*.
arXiv:2403.09794.
- **One Action Too Many: Inapproximability of Budgeted Combinatorial Contracts**
M. Feldman, Y. Gal-Tzur, T. Ponitka, M. Schlesinger – *ITCS 2026*.
arXiv:2504.01773.
- **Fair Division via Resource Augmentation**
H. Akrami, A. Eden, M. Feldman, A. Fiat, Y. Gal-Tzur – under submission.
arXiv:2502.09377.
- **Equal-Pay Contracts**
M. Feldman, Y. Gal-Tzur, T. Ponitka, M. Schlesinger – under submission.
arXiv:2601.15478.

Awards & Scholarships

- Deutsch Center award for PhD students in Computer Science (2026)
- Excellence in teaching award, TAU (2024-2025)
- Full tuition scholarship, “Amirim” honors program (2016–2018).
- Dean’s honor List, HUJI (2016–2018).
- Libra Group scholarship for outstanding BSc Students (2017).

Experience

Teaching Assistant, Tel Aviv University 2023 – Present
Discrete Mathematics course, CS department.

Algorithm Developer, Mobileye (Intel) 2020 – 2023
Driving Semantics Group
Developed deep learning models for traffic sign recognition.

Geometry Group 2018 – 2020
Built algorithms for 3D measurement extraction from images.

Teaching Assistant, Hebrew University of Jerusalem 2018
Grader for Algorithms course.

Service

- Program Committee Member, ACM Conference on Economics and Computation (EC), 2026
- Reviewer, ACM Symposium on Theory of Computing (STOC), 2026
- Reviewer, ACM-SIAM Symposium on Discrete Algorithms (SODA), 2025
- Program Committee Member, Easy Peasy Workshop (EC), 2026

Academic Activities

- Organizer, Algorithms Seminar, Tel Aviv University, 2025–2026
- Tutorial (with co-authors), ACM Conference on Economics and Computation (EC), 2026
Algorithmic Contract Design for Teams
